

Attendance

Getting systems working in real-time

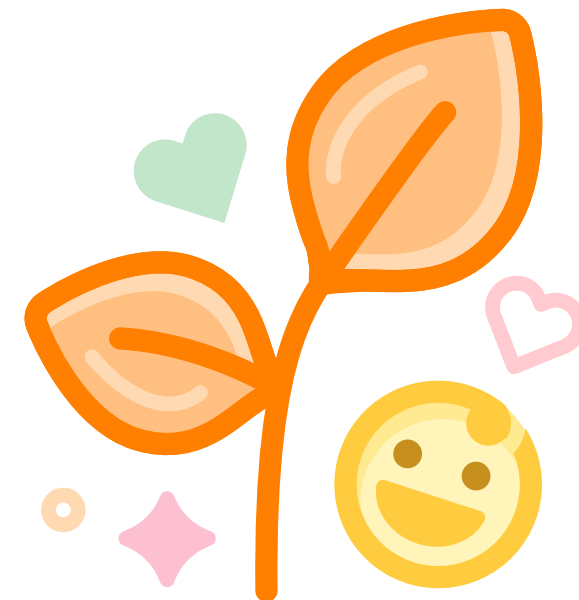

Pillars of Duty of Care

Attendance

Where are my students?

Wellbeing

How are they?

Communication

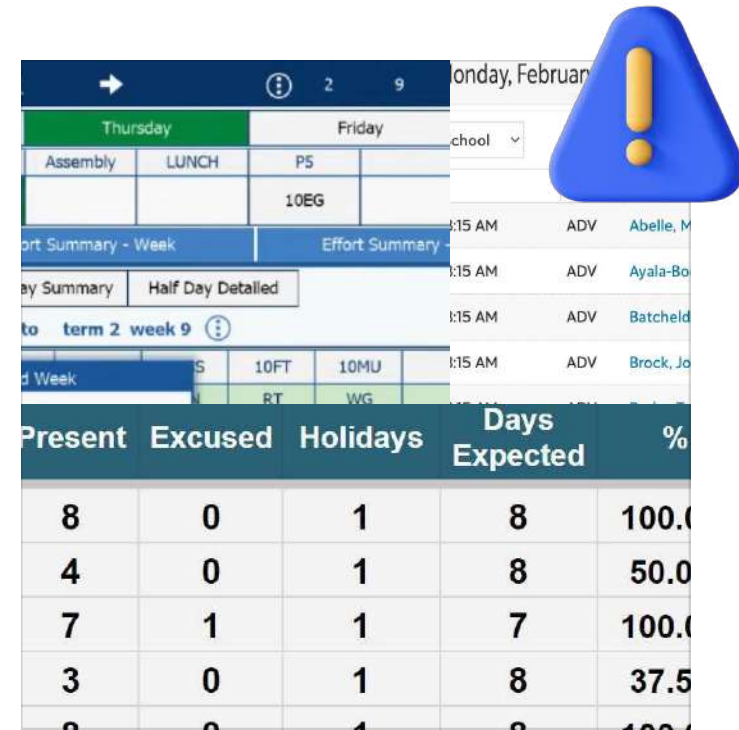

How do we communicate with them?

What Duty of Care means to us

At Orah, Duty of Care means making sure students are accounted for, both physically and mentally. It's all about helping schools to create a secure and supportive environment.

Where schools are starting from

The screenshot shows a complex, multi-tabbed web interface for school attendance. It includes various summary and detailed views, but the layout is cluttered and difficult to navigate. A large blue warning icon with an exclamation mark is overlaid on the top right of the interface.

Present	Excused	Holidays	Days Expected	%
8	0	1	8	100.0
4	0	1	8	50.0
7	1	1	7	100.0
3	0	1	8	37.5

Clunky, hard to use tools

Multiple systems to tracking student location and attendance

Manual data entry leading to inaccurate or lagging data

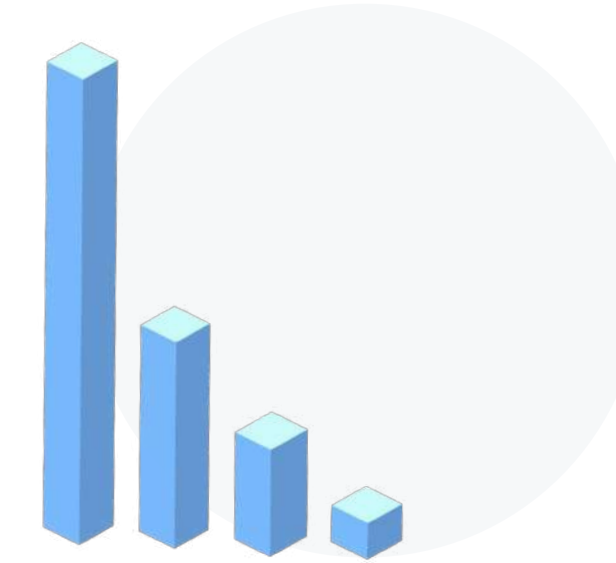

No real-time understanding of where students are

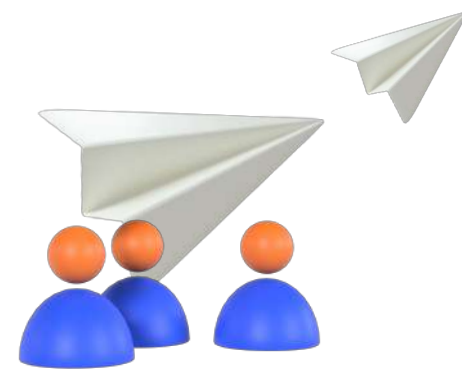

Implementation Benefits

Improved time savings & ease of use

Improved insights & data accuracy

Improved parent communication

Improved safety with real-time student accounting
